2016, 2017, 2018 Next Generation Skiffs List of enhancements

- Increased bow sectional strength
- Deletion of centreboard cassettes and construction of integrated centre case
- Improved Rudder frame
- Improved jib mouldings
- Movement of jib luff position inward end to allow more space for digital controls
- Higher spec tube construction for tack line, jib luff and bowsprit
- Higher spec spinnaker take off construction
- Introduction of colour choice for hull and topsides. Clear still remains an option.
- Higher spec rudder and centreboard construction
- Repositioning of cradle mounts
- Introduction of control solids where required

What do you need to do now?

- Fill out the forms below for your options packages
- Pay the deposit, you will then be given a payment schedule from the ASSA. No skiffs will be released until paid in full
- Make application to your club or sponsor to see what funding maybe available
- Skiffs will be available for pick up from Brookvale, Sydney. You will be advised of the pickup date. You will need to bring your own trailer for pick up. Note strapping your skiff to the trailer is your responsibility
- Insurance of the skiff will need to be organised by the purchaser (yourself) at least 2 weeks prior to delivery. We advise this as parts of the packages such as sails and or spars will be ready prior to hull delivery.
- Sailor Registration with the ASSA can be done on- line via www.Skiffs.org.au
- Wait for your new skiff to arrive

Item	Supplier	Cost.	YES /NO
