PRESIDENT'S REPORT:

The President commented on what has been another positive year with regular meetings being held by the Australian executive, and is looking forward to moving forward with all 3 associations working closer together. Rob also mentioned that the Australian Executive is working hard to promote the class as a whole. Rob thanked the committee for their efforts this year especially Clint Bowen who has been working hard behind the scenes on the new boats and the contracts. The President also wishes all competitors an enjoyable regatta here at Belmont.

## COMMODORES REPORT:

Lloyd welcomed all to Belmont 16ft Sailing Club and wished all a successful regatta. Lloyd also would like to thank Clint for the time and effort being put in by Clint Bowen on the new China boats. He also thanked all for attending the Belmont 16ft Sailing Club.

## NSW REPORT: (report by Clint Bowen)

The NSW State titles were won by the Brydens Lawyers (Lee Knapton, Peter Mackie and Ricky Bridge). Clint also advised that the new prototype should be arriving in April 2015 and gave some info and background on the new boats. Once the prototype has been sailed and put in the jig and all other measurements completed he was hoping for the first batch of new boats to arrive in August 2015. The Association is going to bring the new boat to Belmont for a test sail once it has been commissioned.

Clint went on to thank the Belmont and Manly Clubs as well as the NSW 16ft Skiff Association and Rob Wasson for their help and financial contribution for the new boats to happen. Clint went on also to explain that, as part of ordering 9 new boats, he has been able to secure a deal with CST for a spar package and also a deal on the 9 new boats.

## QLD REPORT: (report by Pat Hanlon)

Qld this year had 8 boats register for the state titles which is the biggest fleet in years. It was the most competitive racing we've had in some time which was also very promising for the future and had a number of newcomers to the class sailing throughout the title. Data 3 took the title in a count back.

We held another pre-season training day for the 16's which was a success. We had Rob Flanagan from the Belmont club come and take us through two days of training involving tuning/setup and on water skills. We will be on the lookout for a coach for next season as well, so if anyone is interested in coming up before or at the start of next season let us know. We will be looking to focus on the development of the 13ft skiff fleet in the second half of this season.

We have had some success from our efforts in getting juniors on skiffs last season with four 13's being purchased in the offseason. We have 3 attending the nationals this year which is a great achievement and positive sign for the future of 16's in Qld. We will be having some training days for the 13's in the New Year and hope to have a good fleet on the water for their state titles at season's end.

## 2015-16 Nationals

Organisation for the 2015-16 Nationals is well under way. The Qld Association is looking to build on the very successful event the Australian Association held there recently. The Association is aiming to make it a very family friendly social event. The organisers have been in talks with the Maryborough Sailing Club and have also had offers of support from both DPSS and BSS. The dates have been firmed as Heat 1 on (Tuesday) December 29th 2015 and Heat 7 wrapping up on (Sunday) January 3rd 2016. Measurement would be Monday the 28th of December 2015. There will be a lay day on New Year's Day and will two days with two races to keep the carnival condensed.

The idea behind keeping the carnival condensed in this way is to minimise the burden on our volunteers and also to allow competitors to have more time with their family before or after the event during this busy period. Any feedback on the proposed schedule can be emailed to [Qld16ftskiffs@hotmail.com](mailto:Qld16ftskiffs@hotmail.com)

The Qld Association is looking into QLD Government and local council grants and are following up on local sponsorship opportunities but if anyone has any leads on potential sponsors the Association would appreciate any the contact information.

The Qld Association will be following up with the Australian Association shortly to confirm the requirements of the titles including prize money and number of rescue craft etc.

### 13ft SKIFF REPORT:

The 13ft skiffs have continued with good numbers again this year.

### ELECTION OF OFFICIALS:

Nominations for the Australian Officials for the 2014-15 season were called for and are as follows:
